# *Clay Recipes*

## Ingredients

2 cups salt  
2/3 cups water  
1 cup cornstarch  
1/2 cup cold water

## Directions

Stir salt and water in a saucepan over heat 4-5 minutes.

Remove from heat; add cornstarch and cold water.

Stir until smooth; return to heat and cook until thick.

Allow the clay to cool, then shape as desired. When dry, decorate with paint, markers, glitter, and so on. If you like, finish with clear acrylic spray or clear nail polish.

Store unused clay in a Ziploc bag.

## Ceramic Clay

Place 3 cups of cornstarch into a saucepan, and then from there, add in about 3 cups of white glue, a tablespoon of white vinegar, and then 2 tablespoons of vegetable or canola oil, Then add 1 tablespoon of glycerin. You want to mix this over low heat, and then, get it to the point where the clay is thick and lumpy.
